Dear Council Members:

Thank you for your phone call concerning the SW Alaska Transportation plan and requesting copies of the documents containing the analysis of transportation alternatives.

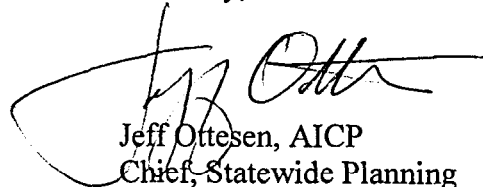

I have enclosed several appendices of the Technical Memorandum, Description of Alternatives. I left out the aviation elements because we are completely reworking the aviation segment of the plan.

You can also find other relevant information on our web site. I know that download times in rural Alaska is sometimes very slow. If you see other documents you wish to have sent to you, just send email or make another call. The web site for the plan is:
http://www.dot.state.ak.us/external/state_wide/planning/pb/swatplan.html

We are planning at least two trips to the Bristol Bay region in the coming months. In January we will present the plan to the BB Area Health Corporation, on the 18th.

I look forward to continuing the dialog and thank you for taking the time to review these materials.

Sincerely,

Jeff Ottesen, AICP
